LIP-INK® International proudly supports decisions that are safe, natural healthy, recyclable, organic, kosher, renewable resource solutions that support our lifestyles of health and sustainability (LOHAS), 24-7, global for an eco-friendly world.

LIP-INK® products are demonstrated and sold at locations that support Eco-Green, Sustainable Solutions for Resort Gift Boutiques, Med Spas, Salons & other Medical offices creating brand loyal customers bringing new and ongoing revenue streams.

LIP-INK® provides maximum hydration and sun protection.

An encapsulation of smear-proof color to the skin takes place upon application and the color can be applied directly under and over any of LIP-INK®s. (over 100 different wax free lip moisturizers). The color adheres to the wet areas of the lips, that other long lasting lipsticks cannot be applied too. No tell tale line is left wear the lip color ends and the wet area begins. This also keeps the lip hydrated and in tact, allowing for a much hydrated fuller looking lip rather than a dry one.

LIP-INK® specializes in guaranteed smear-proof & long lasting color for the Lips, eyes, brows and face, utilizing a multi-patented process of candy pill coating polymers that come from renewable source, that are both water and oil insoluble.

The LIP-INK® smearproof color is removed with LIP-INK® Herbal OFF remover, one of the LIP-INK®'s family of patented products. LIP-INK® Herbal OFF remover, consists of a water base baby soap buffered to a PH 11, similar to the PH of Visine® or Toothpaste, yet so safe you can pour it right into your eyes and remove our LIP-INK® smearproof Eye Liners.

LIP-INK®'s award winning formulas have zero texture. "WE KNOW COLOR!"

Allowing for color layering, over one million colors can be created by layered one over another, up to three layers, as well as over any one of LIP-INK®'s Moisturizers and because it has no texture, and it is so sheer, over one million colors can be created, giving women the same colors they already like and giving them the freedom to create any new color they want, with an added plus they can wear it 24-7, through a meal and drinks, even sleep with it on.

LIP-INK® products are natural, organic, vegan, Kosher, green renewable, wax free natural solutions. Supporting Lifestyles of Health & Sustainability "LOHAS," for an eco friendly world. Founded in 1995, self manufactured in the USA . All of our products are made with no added preservatives, using pigments, 40 natural herbs and botanicals including goldenseal, chamomile, rosemary extract, calendula extract, beta carotene, Vitamins E, C, B-5 (panthenol), 13 trace minerals, completely free of lead, wax, animal products or animal by products, parabens, and Glycols. All ingredients meet U.S. FDA and CTFA cosmetic standards and guidelines. A comparative UVA and UVB, 30 SPF sun protection and full of natural humectants leaving your lips tingly fresh and moisturized.

LIP-INK® products are demonstrated and sold at locations that support Supporting Eco -Green, Sustainable Solutions for Resort Gift Boutiques, Med Spas, Salons & other Medical offices creating brand loyal customers bringing new and ongoing revenue streams.

Fifteen years on, Rose Nichols President/CEO of LIP-INK® International continues to handcraft, formulate and compound an extraordinary lip color that, unlike lipstick, offers a timesaving, confidence-building solution for active women. Not only is this a product that, when applied, feels remarkably like bare skin, it is also beneficial to the lips. The revolutionary lip color™ speeds up natural lip exfoliation of dead skin cells – revealing softer, smoother, younger-looking lips that are tingly fresh and moisturized in their natural state.

It is new technology for cosmetics. Other companies claim they're products are smearless, long-lasting and liquid. However, ours is the only original, award winning multi patented real wax free guaranteed smearproof and long lasting green chemistry liquid lip color™. We do not even refer to our lip color product, as "lipstick" because it is not lipstick; it is the only lip color of its kind and proves what we claim." LIP-INK® products are patented and cannot legally be duplicated.
