

Tingly Fresh with Patented Botanical Coverage

Vegan, Kosher, Natural and Organic

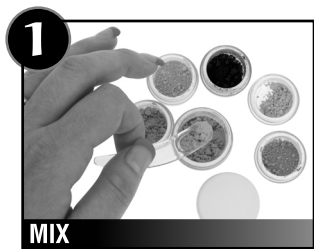

Waxfree healthy Natural Solutions by Lip-Ink® International

LIP-INK® SEMI-PERMANENT® 24-7 INSTANT TATTOO, BRUISE, AND SCARS COVERUP

Cover up that tattoo you don't want people to see or that embarrassing bruise or scar with LIP-INK® Semi-Permanent® 24-7 Instant Coverup. The five LIP-INK® natural mineral powders are excellent to veil any tattoo, bruises, or scars by camouflaging it to match your skin while the LIP-INK® Color "Clear" acts as a perfect sealer by encapsulating the mineral powders, making it smear-proof, long lasting, and waterproof, ensuring that it doesn't go anywhere. The product can be layered at least three times until the blemish and the surface area is fully blended. Go swimming or jogging, rub or scratch, the blemishes will not resurface. Create a variety of shades to match your skin tone and wear it with confidence, knowing that your little secret is safe with LIP-INK® Semi-Permanent® 24-7 Instant Tattoo, Bruise and Scar Coverup.

Applying Lip-Ink® Semi-Permanent® 24-7 Instant Coverup

★ REPEAT STEPS 3 & 4 UNTIL FULL COVERAGE

IMPORTANT REMINDER BEFORE USE: Upon first application of our classic LIP-INK® Clear, open the vial carefully, as LIP-INK® formulas are LIQUID. While opening LIP-INK® Natural Mineral Powders are purposely filled low, they have no inside cover under the cap. This is by design so that you can shake them inside the jar before opening. Both can spill, or splatter when in contact with clothing, carpet, etc. Keep out of heat.

STEP 1: Before application, use the five different LIP-INK® Natural Mineral Powders to blend your own personal color. A clear spatula and white capped jar has been provided for this purpose.

STEP 2: Begin by purifying the area of the skin you wish to cover with LIP-INK® OFF Solution.

STEP 3: Splash with water and pat dry.

STEP 4: Apply one layer of LIP-INK® Color Clear in one direction only, over the entire area you wish to cover.

STEP 5: **IMPORTANT:** Apply mineral powder while LIP-INK® Color Clear is still wet. Take the sponge applicator that has been included in your kit and use it like a brush by dipping it into the loose personalized color you have created from the mineral powders. Tap it onto the area directly over the painted area with Lip-Ink Clear® - repeat process 3 and 5 at least three times until you no longer see the tattoo, scar, or bruise and the surface area is fully blended. Wipe off the excess powder with a tissue and you are finished.

STEP 6: To remove your LIP-INK® Semi-Permanent 24-7 Instant Coverup, put a small amount of LIP-INK® OFF Solution on a tissue or cosmetic pad and apply and compress it to the desired area you wish to remove your Coverup application. Finish by splashing with water.

NOTE: The LIP-INK® Products may tingle, this reaction is normal. The sensation is due to the natural herbs and botanicals. The LIP-INK® wax free, guaranteed smearproof & long-lasting, multi-patented color product line is not compatible with any other cosmetic products. LIP-INK® Color Cosmetics are based on scientific research and are protected by U.S. and International patents. Competitive products cannot legally duplicate LIP-INK® Color Cosmetics and their precise chemistry. New customers should start with a kit when purchasing any of our guaranteed smearproof color. The codes that appear randomly on color and shine vials provide Internal QC information only.
